

Rule Up For Discussion

Proposed Amendment to
Amended Section WAC 230-40-825
Closed circuit television system – House-banking.

ITEM 14 (a) on the September 10, 2004, Commission Meeting Agenda.	Statutory Authority 9.46.070
--	-------------------------------------

Who proposed the rule change?

Robert Dayton.

Why is this rule change needed?
--

Robert Dayton has submitted a Petition for Rule Change to amend WAC 230-40-825. This rule sets closed circuit television surveillance requirements for house-banked card rooms. Currently, subsection (2)(c) of this rule requires winning hands in excess of \$500 to be verified by surveillance; this includes verification of the winning hand, the amount of the wager and the player who won the prize.

Mr. Dayton writes that “on busy days, so many winning hands are verified that it is exhausting for floor supervisors and surveillance observers, and prohibits them from sufficiently protecting the assets of the card room and upholding other rules”. Mr. Dayton also notes that with the increase in betting limits, there will be even more payouts over \$500. Mr. Dayton would like to raise the winning amount to be verified from \$500 to \$1,000.
--

<u>Changes after the August meeting:</u>

At the August Study Session, the Recreational Gaming Association (RGA) said they feel the increase should be \$2,500.
